

THE ONE

THE IDEA

I wanted to create a project showcasing a real estate company. It all started by creating a website about my home, but it turns out that my phone camera needs to be better to click good quality pictures and make cinematic videos.

It took me a day to reach the conclusion that I should create my website about a well-known property with quality pictures and videos. After searching the web for a while, I discovered "THE ONE".

DESIGN INSPIRATION

Transparent Header - Website of DLF Camellias

Video Playing in Background - Website of Tesla

Pictures and Videos of THE ONE - Enes Yilmazer YT Channel

Carousel - Website of Apple India
